# Questions for the PO

**Q. What customer details are needed for the login?**

A. Username and Password.

**Q. Cost based on number of minions and weight?**

A. No budget.

**Q. Weight of the Lasers?**

A. Easy laser is half the weight of the hard laser.

It takes three minions to operate a small laser and 6 for a hard on.

**Q. Costs for lasers?**

A. No budget

**Q. What is the endgame? To get the minions to the island or calculate a cost?**

A. It's simply a pipeline showing how the minions get to the island.

**Q. Online website or just an application?**

A. Online website. Database>Java>Front end

**Q. How many destinations?**

A. One…………for now.

A destination can only hold 3 planes or 2 spaceships not both.

**Q. What sizes are the ships?**

A. Space ships have double the capacity of planes.
